

CHANRYLE JAY CAGARA

AI AUTOMATION & TECHNICAL OPERATIONS SPECIALIST

Quezon City, Philippines | 0994 783 6988 | chanrylecagara@gmail.com
linkedin.com/in/chanrylejay | github.com/chanrylejay | chanryle-cagara.vercel.app

Operations professional with 4+ years of experience in content moderation, quality assurance, and process optimization — now building and shipping production automation systems and full-stack web applications using AI-assisted development tools. Proven ability to design, deploy, debug, and maintain real-world systems that handle live data, serve real users, and run at \$0/month infrastructure cost.

TECHNICAL & OPERATIONAL SKILLS

Automation & AI: n8n, DeepSeek API, Gemini API, Telegram Bot API, AI-assisted development (Bolt.new, Cline)

Web Development: Next.js, React, TypeScript, JavaScript, Tailwind CSS, HTML/CSS, Vite

Cloud & Infrastructure: Vercel, Vercel Cron Jobs, Neon PostgreSQL, GitHub, PowerShell

Data & Processing: PDF scraping, CSV extraction, REST APIs, webhook integration, pdf-parse

Operations & QA: Content moderation, trust & safety, quality auditing, SOP development, process optimization

PROFESSIONAL EXPERIENCE

Accenture | Content Operations Specialist (App Review)

May 2025 – Present | Philippines

- Evaluate 100+ complex digital application submissions daily, ensuring adherence to platform compliance standards, copyright laws, and corporate policies.
- Audit policy findings, document risk indicators, and escalate high-risk tickets while maintaining precise administrative performance reports.
- Maintained 100% accuracy metrics and exceeded daily productivity benchmarks, earning Top Performer recognition for 6 consecutive months.
- Apply compliance auditing, content moderation, and app review workflows to support high-volume digital operations with consistent quality control.

Teletech Inc. | Customer Support Representative

Aug 2023 – Sep 2024 | Philippines

- Delivered technical troubleshooting and operational support for client issues, sustaining a 95%+ customer satisfaction rating.
- De-escalated complex account and system issues, reducing overall client complaints by 20%.
- Improved response templates and troubleshooting documentation with internal teams, increasing workflow efficiency by 15%.
- Used CRM and support tools to manage customer interactions, document issue history, and support timely ticket resolution.

Alorica | Customer Support Associate

Jul 2022 – Jan 2023 | Philippines

- Resolved high-volume customer inquiries across voice and chat channels
- Provided technical troubleshooting and billing support while maintaining quality metrics

Accenture | Administrative & Recruitment Coordinator

Mar 2021 – Dec 2021 | Philippines

- Coordinated end-to-end recruitment pipelines for 200+ global candidates, including panel interview scheduling and onboarding logistics.
- Organized compliance documentation, verified background check results, and generated weekly recruitment reports for hiring stakeholders.
- Maintained cross-referenced candidate and compliance data across multiple HR databases to support internal audit readiness.
- Streamlined administrative coordination across scheduling, documentation, and reporting workflows for global recruitment operations.

FEATURED PROJECTS

ma, Ano Ulam? — Filipino Meal Suggestion Engine | Builder & Developer

Next.js 14, TypeScript, Tailwind CSS, Neon PostgreSQL, DeepSeek API, Vercel Cron, pdf-parse

Live: ma-anoulam.vercel.app | **GitHub:** github.com/chanrylejay/ano-ulam

- Full-stack web app that suggests the cheapest Filipino meals daily using real Department of Agriculture market prices — 47 recipes, per-ingredient cost breakdowns, automated daily pipeline, zero AI calls per visit
- Designed a hardcoded recipe cost engine that replaced AI-generated recipes, improving accuracy from 6-7/10 to 10/10

Shiny Gmail Automation — AI-Powered Email Classification | Builder & Developer

n8n, Gemini API, Neon PostgreSQL, Telegram Bot API

GitHub: github.com/chanrylejay/shiny-gmail-automation

- 3 workflows, 60 nodes, \$0/month — classifies emails into 7 labels using Gemini and surfaces rules via Telegram commands
- Shipped after 11 audit rounds, 10 rebuttal rounds, and 72 do-not-repeat items; rated 9.75/10 in production

n8n Project Calculator — Instant n8n Pricing Estimator | Builder & Developer

React, TypeScript, Vite, Tailwind CSS, Vercel

Live: n8n-project-calculator.vercel.app | **GitHub:** github.com/chanrylejay/n8n-project-calculator

- Web app that generates instant project cost estimates for n8n automation work, used as a client-facing sales tool
- Built and deployed in one session using AI-assisted workflow (Bolt.new → VS Code → GitHub → Vercel)

EDUCATION

Bachelor of Science in Information Technology

Quezon City University | Quezon City, Philippines

Graduation: Jun 2020
